

EXTRA  
SLAVIN'S CALLHis Challenge Out and  
Forfeit Up for John  
L. Sullivan.

THE BIG ONE IN NO HURRY.

Says It Will Be Time to Talk When  
Slavin Comes Over.Which Will Be In January, Accord-  
ing to Mr. Fox.

(SPECIAL CABLE TO THE EVENING WORLD.)  
LONDON, Dec. 27.—There is much interest in sporting circles over Frank P. Slavin's challenge to John L. Sullivan, and the answer from the big American pugilist is awaited with considerable anxiety.

Slavin has deposited his \$500 forfeit with the *Sportman*, stipulating that the match shall be for \$5,000 a side and the world's championship, and that it shall occur in six months from the signing of the articles in Australia or America.

Slavin has written a letter to the *Pelican* thanking them for the stand they have taken in his behalf since the outrageous affair at Bruges and assuring them of his intention to honorably hold the championship which they recognize him as holding.

Mr. Abington has presented Slavin with a purse of \$500.

Notice of Slavin's challenge and the posting of his forfeit has been received at the *Pelican* office, with a request that it should be published in the paper.

Slavin's action has not changed the attitude of Sullivan and his friends.

John L. still insists that while he is perfectly willing to meet Slavin or anybody else, it must be for a purse big enough to make it worth his while.

He also thinks it will be time enough to talk when Slavin goes over to this side of the water.

As to the place of fighting, John, of course, looks at no other than American ground, but he repeats that he has had enough of the law and that when the contest occurs it must be under the auspices of a responsible club like the California Athletic Club.

Slavin is expected to arrive in this city in January, and according to Mr. Richard K. Fox will make his headquarters at the *Pelican* office.

The Australian is very highly thought of by many sporting authorities of New York, one of whom said this afternoon: "I consider Slavin the coming pugilistic champion of the world. He has done what neither Charley Mitchell or even the great Sullivan himself could do—he knocked out Jack Burke in two rounds."

Mitchell tried to knock out Burke several times, and failed each time. In 1895 Burke stayed four rounds with John L., though the latter intended to knock him out.

"Slavin and Burke met at Melbourne on Feb. 4, of this year, and in the second round Burke dropped to the floor like a log from a clean knock-out blow on the jaw."

## GRAND JURY ON EXCISE.

It Recommends Trying Violation Cases  
With or Without Jury.

In the presentment made to the Court of General Sessions to-day by the December Grand Jury much space was given to a consideration of the question of the necessity for the enforcement of the Excise law.

The jury declares its belief that it is impossible to consider the large number of these cases which are presented monthly, and at the same time give that attention to public business and even if Grand Jurors could do so, the crowded condition of the General Sessions' calendar would render their trial impossible. The presentment therefore declares that there is no reason why the Court of General Sessions should not have jurisdiction to try them with or without a jury.

The practice of procuring evidence through the aid of minor children is also referred to, and it is recommended that it should be abolished, and that the Police Department take measures to prohibit its members from being in any way concerned in the use of minors in the procuring of evidence.

TAMMANY MEETS TO-NIGHT.

General Jollification and Probable  
Reorganization of Districts.

The Tammany General Committee will have a grand meeting at the Wigwam to-night, which will in a measure be a jollification over recent victories. It is also the last meeting of that body, as the new Committee will meet after Jan. 1.

There will be a call for the annual primaries, and resolutions are to be adopted on the death of Henry W. Grady.

There will probably be a meeting of the Special Committee of Five on Reorganizing the Third, Twelfth and Fifteenth Districts.

In the Third it is claimed that Register Sullivan is responsible for its weakness, as he does not live there.

Coroner Hanly will probably be deposed as leader of the Twelfth District, and a successor in Dick Sullivan is predicted in the Fifteenth.

"Y. & N." Nickle Literature  
condemned a popular demagogue. Druggists. "Y."

## ON TRIAL AT LAST.

The Dock Commissioners Begin the  
Hearing Before Mayor Grant.Chief Clerk Moon Tells About  
Dredging Contracts.The City Paid for Work Done for  
Private Corporations.All of the persons interested in the  
hearing before the Mayor of Dock Com-  
missioners Post and Matthews, with the  
exception of Counselor John L. Cadwalla-  
der, were present in the Mayor's office  
when the proceedings, which were post-  
poned yesterday, were resumed at 2 o'clock  
this afternoon.

Ex-Surrogate Daniel G. Rollins, who  
is associated with Mr. Strahan in the  
prosecution of the accused Commission-  
ers, was present for the first time, having  
recovered sufficiently from his attack of  
the Grip.

Commissioner Cram, who is fortunately  
not charged with his colleagues, was an  
interested spectator.

Mayor Grant opened the proceedings  
with the announcement that the denumer-  
ation of the defendants, asking the dismissal  
of the charges because of the non-judicial  
conduct of Commissioner Cram, was overruled.

To this decision, which required the  
trial to be proceeded with, counsel for  
both defendants filed exceptions.

Chief Clerk Francis E. Moon, of the  
Department, was the first witness sworn,  
and Mr. Rollins announced that he would  
first examine the witnesses on the ninth  
specification of the charges.

This provoked an objection from the  
defense, who declared that the specifi-  
cations should be taken up serially, that  
they had not had time to prepare to cross-  
examine witnesses on this specification, as  
it was practically one of the new  
charges. If the cross-examination could  
be removed, however, they were willing  
to proceed.

This was finally agreed to, and the ex-  
amination proceeded with.

He identified a contract for dredging  
made in 1886 with the Union Dredging  
Company, including several piers on both  
the North and East rivers.

Among them was Pier 4, East River,  
east side.

Several of these contracts were shown  
and identified, and then it was proven  
by the production of the written evidence,  
that at the time the Dock Commissioners  
were contracting to dredge at these piers,  
they were leased to individuals or corpo-  
rations who were obliged by law to pay  
for such dredging.

By this same witness, Mr. Strahan went  
on to show that, notwithstanding this  
lack of obligation on the part of the city  
to pay for this dredging, the Commis-  
sioners audited and certified the bills for  
payment to the Controller.

When the estimate for paying the ex-  
penses of the Commissioners of Accounts  
came up for action before the Board of  
Estimate and Apportionment this morn-  
ing, Controller Myers raised an objec-  
tion to giving them so large an appropria-  
tion as usual.

As to the fact that they are an important  
adjunct to the city government, but he in-  
sisted that they are not expending their  
contingencies as they should, and he does  
not propose to vote for so large a sum  
hereafter.

"The Commissioners of Accounts,"  
said he, "are to assist, not to usurp the  
duties of other departments. They are  
usurping mine now and hindering me  
with reference to the Dock Department  
bills."

If those bills are wrong they should  
advise me of that fact and not hold them  
back for weeks."

The Controller would not vote for the  
sum proposed, \$37,000, and the subject  
was passed for further consideration.

The hearing was adjourned until next  
Thursday morning.

## WILL IT COME TO A WAR?

A More Serious Look in the British-  
Portuguese African Dispute.(BY CABLE TO THE PRESS NEWS ASSOCIATION.)  
LONDON, Dec. 27.—News has been re-  
ceived from Mozambique that Mr. John-  
ston, the British agent, is anxiously the  
country on the shores of Lake Tanganyika.

This, added to the fact that the four  
English men-of-war at Malindi have been  
ordered to Lisbon, which is outside the  
ordinary cruising range, causes the in-  
ference that the state of affairs between  
England and Portugal over the African  
matter has become very serious.

One report is that the British Govern-  
ment has received news to the effect that  
Major Pedro Pinto has already signified  
his threat to conquer the whole Nyassa-  
land.

When the journal is started orators are  
to be sent forth among workmen to preach  
Anarchistic doctrines, and many recruits  
are expected to be enrolled.

JESSUP IS QUIET TO-DAY.

An Expected Renewal of the Race  
Riots Didn't Come.(SPECIAL TO THE EVENING WORLD.)  
SAVANNAH, Ga., Dec. 27.—The expected  
renewal of the race riots has not occurred  
to-day at Jessup.It is believed now that the trouble is  
practically over, and that affairs will  
soon be in their normal state.

There is, yet, however, some extraordi-  
nary watchfulness on the part of the  
officials.

The military companies have gone from  
the place.

FATALITIES OF THE RAIL.

Cable-Car Casualty and a Death in  
a Freight Collision.

(SPECIAL TO THE EVENING WORLD.)  
PITTSBURGH, Pa., Dec. 27.—An unknown  
man, trying to get from in front of a cable  
car on Fifth avenue this morning, was struck  
by another car and instantly killed.

In a collision of freight trains, three miles  
from Altoona this morning, a fireman was  
killed.

Gov. Hill received several visitors at the  
Hoffman House this morning. It is under-  
stood that he came from Albany to secure a  
few days' rest, but he was very busily en-  
gaged when a reporter called. It is prob-  
able that the Governor will remain in the  
city over Sunday.

Just before a fire, a sample of Mott's  
sweat or dry sparkling cider. Cost nothing.

## DEATH'S GRIP.

580 Fatal Cases in Paris  
Within Twenty-Four Hours.French Papers Say the Worst Is  
Not Generally Known.The Disease Seems to Be Losing Its  
Hold in Berlin.Gibraltar the First Port to Try  
the Effects of Quarantine.(BY CABLE TO THE PRESS NEWS ASSOCIATION.)  
PARIS, Dec. 27.—The morning papers  
say that the full extent of the ravages of  
the influenza in this city has not been re-  
ported.

One of them asserts on what is claimed  
as trustworthy authority that there have  
been 580 deaths here within the last 24  
hours.

The estimate is made on medical author-  
ity that of the persons attacked by in-  
fluenza in this city 6 per cent. die.

It must be taken into account that most  
of these deaths are superinduced by other  
causes, influenza seizing upon weakened  
and debilitated constitutions, giving the  
finishing blow.

(SPECIAL CABLE TO THE EVENING WORLD.)  
LONDON, Dec. 27.—The first news of an  
attempt to quarantine against the influ-  
enza is reported from Gibraltar, where  
the United States steamer Enterprise has  
been refused entrance on account of hav-  
ing cases of "La Grippe" among her  
crew.

This morning's reports from Paris  
bring the tidings that the disease has  
assumed still more serious form there  
and has proved especially dangerous in  
cases of leprosy.

Undertakers and their assistants are  
overworked, and many of them are sick  
with the prevailing disorder.

The funeral draping of churches and  
displays of extensive mourning symbols  
have been temporarily dispensed with.

In Berlin, according to the despatches,  
the epidemic is decreasing, while in  
Bremen, Frankfurt, Vienna, Madrid and  
other cities heard from it is increasing.

Two deaths have occurred at Frank-  
fort.

## RIVAL FOR HERR MOST.

A New Anarchistic Journal to Be  
Established.

Herr Most and his Anarchistic journal,  
the *Freiheit*, is to have a rival.

Representatives of fifty Anarchistic  
trade unions from Baltimore, Newark,  
Cincinnati, Denver, Chicago, Boston,  
Philadelphia, and this city, have been in  
session in an upper hall of the Essex Mar-  
ket building for the past two days, and  
after a lengthy pow-wow, it has been de-  
cided to establish a paper with avowed  
Anarchistic principles.

His name has not yet been decided upon,  
in fact, nothing beyond the announce-  
ment of its birth has been made, but the  
members of the different Anarchistic trade  
unions are to be assessed \$1 each, and the  
fund thus raised will be used to run the  
paper.

When the journal is started orators are  
to be sent forth among workmen to preach  
Anarchistic doctrines, and many recruits  
are expected to be enrolled.

After a long discussion at yesterday's  
meeting it was decided to establish a cen-  
tral council, appointed by secret session,  
who will settle upon some general plan  
for members to work upon.

The meeting room, which is on the sec-  
ond floor of the Essex Market building,  
was decorated with pictures of the Chi-  
cago Anarchists who were hung, Mrs.  
Parsons and Louise Michel, while red  
flags and revolutionary mottoes flourish  
on the walls.

An Evening World reporter called  
upon Herr Most at the office of the  
*Freiheit*, 107 William street, this morning.  
Yes, it is true that another paper is  
to be started, "he said," but it will not  
interfere or clash with the *Freiheit*.

"There are a great many Anarchists  
and Socialists who cannot read German,  
and hence they have had to rely upon  
somebody else to translate the matter to  
them. They had a paper last year, but it  
was discontinued owing to a lack of  
funds. The matter is now in the hands  
of fifty delegates of Anarchistic trade  
unions.

Anarchy and Socialism is on the in-  
crease," he continued, and he relied upon  
the reporter's question as to how it was flourish-  
ing at work.Although things look very quiet, a  
great deal of work is being done and the  
principles of Anarchy and Socialism are  
being spread."

## CYCLONE'S HAVOC! KILLED ON THE "L."

Miles of Wires Are Down and Block  
Island Is Cut Off.Sixteen Ocean Steamships Re-  
ported to Be Overdue.Blowing Forty Miles an Hour at  
Sandy Hook—The Gale  
Elsewhere.

The sweeping storm of which New York  
City felt the edge yesterday afternoon  
has almost gone from us. It passed over  
a portion of the country in the form of a  
belt, doing the greatest damage in the  
northern part of New York, Ohio and  
Pennsylvania, and in the southern part of  
Canada.

The cyclone has done immense damage  
to the telegraph wires. At the Western  
Union office this morning Wire Chief  
Baldwin said to an EVENING WORLD re-  
porter:

"We suffered very great damage in  
this State. It is impossible to tell the ex-  
act damage yet, but many miles of wire  
were blown down. In Syracuse our wires  
were blown down and mixed up to such  
an extent that communication was next  
to impossible.

"The situation at Albany was nearly as  
bad. Our worst trouble in the State was  
at Chatham, where the wires were en-  
tirely blown down.

"In Connecticut we experienced even  
more trouble than in New York, and the  
cyclone blew down wires all over the  
State.

"At Uncle Sam's Weather Bureau in the  
Equitable Building, further news of the  
storm's work was received.

"We have received no report from  
Block Island this morning," said Sergt.  
Dunn, "and the cyclone has evidently  
blown down the cable and wire connect-  
ing it with the mainland."

"The cyclone, which was caused by  
the meeting of warm air from below the  
waters of the Gulf of Mexico with cold  
air from the north, and covered a terri-  
tory comprising nearly all the lake  
region, is now central over the coast of  
Nova Scotia.

There are high winds all along the  
Atlantic coast, extending as far south as  
Cape Hatteras. Throughout the Lake  
region the cold high wind is blowing  
in snowing in Canada, but over the rest  
of the country there is generally fair weather.

The cold wave will be dissipated  
somewhat tomorrow, but it will be no colder,  
but, on the contrary, much warmer to-  
day and to-morrow. The high winds will  
go down some time this afternoon or  
evening.

The forecast for the next twenty-four  
hours is fair weather, becoming warmer.  
There is no immediate prospect of severe  
winter weather.

The greatest anxiety is manifested  
among shipping circles concerning the  
safety of vessels now at sea and already  
en route.

Some are overdue nearly two weeks, and  
it is feared that they could not weather  
the terrible seas now prevailing and have  
been lost.

Sixteen vessels are overdue. Some of  
them should have been here weeks ago  
and others are only two days behind time.  
The full list is as follows:

State of Alabama, left Glasgow Dec. 4;  
Island, left Copenhagen Dec. 4; Italia,  
from Gibraltar, Dec. 9; Marsala, from  
Gibraltar, Dec. 10; Hamburg, Dec. 11;  
Svevia, from Hamburg, Dec. 11;  
Victoria, from Bremen, Dec. 12;  
Svevia, from Bremen, Dec. 12; Spain, from  
Glasgow, Dec. 13; Wisconsin, from  
Glasgow, Dec. 14; Polynesia, from  
Glasgow, Dec. 14; Pennsylvania, from  
Glasgow, Dec. 14; Vandana, from  
Glasgow, Dec. 14.

All of these vessels are capable of  
making an ocean voyage in from seven  
to twelve days. Allowing fifteen days  
for the vessel to be at sea, and the time  
for the vessel to be at sea, it has been de-  
cided to establish a paper with avowed  
Anarchistic principles.

His name has not yet been decided upon,  
in fact, nothing beyond the announce-  
ment of its birth has been made, but the  
members of the different Anarchistic trade  
unions are to be assessed \$1 each, and the  
fund thus raised will be used to run the  
paper.

When the journal is started orators are  
to be sent forth among workmen to preach  
Anarchistic doctrines, and many recruits  
are expected to be enrolled.

After a long discussion at yesterday's  
meeting it was decided to establish a cen-  
tral council, appointed by secret session,  
who will settle upon some general plan  
for members to work upon.

The meeting room, which is on the sec-  
ond floor of the Essex Market building,  
was decorated with pictures of the Chi-  
cago Anarchists who were hung, Mrs.  
Parsons and Louise Michel, while red  
flags and revolutionary mottoes flourish  
on the walls.

An Evening World reporter called  
upon Herr Most at the office of the  
*Freiheit*, 107 William street, this morning.  
Yes, it is true that another paper is  
to be started, "he said," but it will not  
interfere or clash with the *Freiheit*.

"There are a great many Anarchists  
and Socialists who cannot read German,  
and hence they have had to rely upon  
somebody else to translate the matter to  
them. They had a paper last year, but it  
was discontinued owing to a lack of  
funds. The matter is now in the hands  
of fifty delegates of Anarchistic trade  
unions.

Anarchy and Socialism is on the in-  
crease," he continued, and he relied upon  
the reporter's question as to how it was flourish-  
ing at work.

Although things look very quiet, a  
great deal of work is being done and the  
principles of Anarchy and Socialism are  
being spread."

## INDICTMENT EVA WILL FIGHT.

Suplt. Pierce, of the Brush Company,  
to Answer for Harris's Death.Charged with Manslaughter by  
the Grand Jury To-Day.Another Presentment Against the  
Deadly Electric Wires.

The Grand Jury made its long-expected  
presentment in the case of the electric  
light wires this afternoon.

They have been investigating the mat-  
ter for nearly a month, and it was be-  
lieved that the arraignment of the com-  
panies for maintaining wires that were  
dangerous to life would be a very strong  
one, and that a number of indictments  
would follow.

Instead of this the presentment is very  
mild and only makes recommendations  
to the Legislature, and one indictment  
is reported to have been found.

The person indicted is Assistant Suplt.  
Charles W. Pierce, of the Brush Illumi-  
nating Company, who is held responsible  
for the death of young Harris, the clerk  
in an Eighth avenue store, who was killed  
by a Brush wire.

In the presentment the Grand Jury  
says that they have devoted a great deal  
of time to the investigation of the  
subject of electric lighting by the  
various companies operating  
wires, in order to find out if possible  
whether any of them have been running  
their systems without due regard to the  
lives and safety of the public.

For this purpose a mass of testimony  
has been taken, in which the Grand Jury  
says the diversity of opinion in regard to  
the safety of the wires is so great that  
they have practically been able to come to  
no definite conclusion in the matter.

A great deal of expert testimony was  
received, and the expert testimony ad-  
ferred as radically in their opinion as the  
other witnesses.

"It is manifest, however," the pre-  
sentment states, "that the Legislature  
should be invoked at once."

"The Grand Jury are convinced that  
the business of the generation and dis-  
tribution of electric currents is one  
which should be investigated by the Leg-  
islature for the purpose of ascertaining  
the character of legislative enactment  
required to provide a means for carrying  
on the same without danger to the public.

"We therefore recommend that the  
Legislature appoint a committee of mem-  
bers to inquire into the subject and re-  
port to the Legislature at its next ses-  
sion a bill for the purpose of providing  
for the safety of the public."

Judge Gildersleeve took the indict-  
ment, and shortly after a bench warrant  
was issued for the arrest of Pierce.

Henry Harris, for whose death Suplt.  
Pierce is indicted, was killed Nov. 29, by  
a shock of electricity while helping a  
brother clerk remove a showcase from in  
front of the store of J. J. Callan's dry-goods store,  
678 Eighth avenue.

Suplt. Pierce made his appearance at  
the District Attorney's office at 3.30  
yesterday, accompanied by his head clerk,  
William T. Moore, President of the  
Brush Illuminating Company, and Law-  
yer Houston, representing the firm of  
Callan, Hughes & Co., 100 West  
New York Volunteers.

On June 25, 1892, he was shot in the  
left side of the Williamsburg road. A bullet  
struck him in the right hip, going through  
the bone.

Carried to the rear and packed off to  
City Point in the hospital train, he was  
sent back to this city and lay in the  
New York Hospital from July to Decem-  
ber, when he was returned to his regim-  
ent in time to take part in the battle of  
Friedrichsberg.

During the subsequent retreat to Fal-  
mouth he was wounded on the service  
for disability. His wound had left him  
disabled.

He recovered after a few years and  
joined the police force in July, 1875. He  
died of a heart attack in three precincts  
within the city of New York.

The coroner's jury found that he was  
killed by a bullet fired from a rifle, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet  
entered the body of the deceased through  
the right hip, and that the bullet entered  
the body of the deceased through the right  
hip, and that the bullet entered the body  
of the deceased through the right hip, and  
that the bullet entered the body of the  
deceased through the right hip, and that  
the bullet entered the body of the deceased  
through the right hip, and that the bullet
